Key Word Index Volume 21 *

Active synapse
Endocytosis; Synaptic vesicle: Horseradish peroxidase; Crustacean neuromuscular junction; Macro-patch electrode; Labeling technique; Electron microscopy, 17
Antibody
Anti-myelin; ELISA; Linear; Neuritis,81
Anti-myelin
Antibody; ELISA; Linear; Neuritis, 81
Arm movement
Motor control; Trajectory planning; Kinematics, 181
Arthropod
Wholemount; Serotonin; Immunocytochemistry; Immunoperoxidase; Avidin–biotin; Crustacean; Cerebral ganglion, 1
Autogenic reflex
Decerebrate cat; Heterogenic reflex; Mechanical analysis, 265
Autoradiograph
2-Deoxyglucose; Locomotion; Brainstem; Mesencephalic locomotor region (MLR); Thalamic cat, 303
Avidin–biotin
Wholemount; Serotonin; Immunocytochemistry; Immunoperoxidase; Crustacean; Arthropod; Cerebral ganglion, 1

Brainstem locomotor region
Rhythmic movement; Motor pattern generation; Motor control; Respiratory movement; Locomotor pattern, 321
Brainstem
2-Deoxyglucose; Autoradiograph; Locomotion; Mesencephalic locomotor region (MLR); Thalamic cat, 303.
Bromodeoxyuridine
Human astrocyte; Glial fibrillary acidic protein; Double immunofluorescence, 9

Cat
2-Deoxyglucose; Regional glucose utilization; Spinal cord; Deafferentation, 139
Cat
Fluorescent tracer; Retrograde transport; N. interpositus of the cerebellum; Red nucleus, 31
Cat muscle
Electromyography; Muscle unit; Recording array, 105
Cat training
Chronic recording technique; Decerebration; Postural control; Reflex, 311
Central pattern generator
Oscillator; Locomotion; Lamprey; D-Glutamate; Regeneration, 113
Cerebellar Purkinje cell
Treadmill locomotion; Neuromodulation; Sex steroid; Evoked discharge; Evoked:spontaneous ratio, 335
Cerebellum
Monoclonal antibody; Immunocytochemistry; Immunoassay; Hybridoma, 145
Cerebral ganglion
Wholemount; Serotonin; Immunocytochemistry; Immunoperoxidase; Avidin–biotin; Crustacean; Arthropod, 1
Chick embryo
Motor activity; Development; Embryonic motoneuron; Spinal function, 275
Chronic recording
Muscle spindle; Fusimotor neuron; Voluntary movement; Experimental simulation; Iterative approximation, 225
Chronic recording technique
Cat training; Decerebration; Postural control; Reflex, 311
Chronic unit recording
Substantia nigra pars compacta; Stainless steel electrode; Tungsten electrode; Parylene; Dopamine, 71
Command system
Locomotor system; In vitro preparation; Lamprey; Pattern generator, 251
Computational model
Neural network; Parallel processor; Motor program generator, 127
Computer graphics
Serial section; Three-dimensional reconstruction; Hidden line removal, 55
Cross-correlation
Signal analysis; Red nucleus; Single unit;

* This index also contains items from issue 21 (1).

Descending pathway; Motor system, 201
Cross-correlation
Electromyography; Neck muscle; Motor unit, 239
Crustacean
Wholemount; Serotinin; Immunocytochemistry; Immunoperoxidase; Avidin–biotin; Arthropod; Cerebral ganglion, 1
Crustacean neuromuscular junction
Active synapse; Endocytosis; Synaptic vesicle; Horseradish peroxidase; Macro-patch electrode; Labeling technique; Electron microscopy, 17
Cuprolinic blue
Myenteric plexus; Enteric nervous system; RNA staining; Neuron counting, 45
Current dipole
Infinite conductor model; Inverse problem; Somatosensory evoked potential, 195

Deafferentation
2-Deoxyglucose; Regional glucose utilization; Cat; Spinal cord, 139
Decerebrate cat
Autogenic reflex; Heterogenic reflex; Mechanical analysis, 265
Decerebration
Cat training; Chronic recording technique; Postural control; Reflex, 311
2-Deoxyglucose
Autoradiograph; Locomotion; Brainstem; Mesencephalic locomotor region (MLR); Thalamic cat, 303
2-Deoxyglucose
Regional glucose utilization; Cat; Spinal cord; Deafferentation, 139
Descending pathway
Cross-correlation; Signal analysis; Red nucleus; Single unit; Motor system, 201
Development
Motor activity; Chick embryo; Embryonic motoneuron; Spinal function, 275
Dopamine
Substantia nigra pars compacta; Chronic unit recording; Stainless steel electrode; Tungsten electrode; Parylene, 71
Double immunofluorescence
Human astrocyte; Bromodeoxyuridine; Glial fibrillary acid protein, 9
Dynamic simulation
Muscle; Jaw system; Three-dimensional reconstruction, 287

Electromyography
Cross-correlation; Neck muscle; Motor unit, 239
Electromyography
Muscle unit; Recording array; Cat muscle, 105
Electron microscopy
Active synapse; Endocytosis; Synaptic vesicle; Horseradish peroxidase; Crustacean neuromuscular junction; Macro-patch electrode; Labeling technique, 17
ELISA
Antibody; Anti-myelin; Linear; Neuritis, 81
Embryonic motoneuron
Motor activity; Development; Chick embryo; Spinal function, 275
Endocytosis
Active synapse; Synaptic vesicle; Horseradish peroxidase; Crustacean neuromuscular junction; Macro-patch electrode; Labeling technique; Electron microscopy, 17
Enteric nervous system
Cuprolinic blue; Myenteric plexus; RNA staining; Neuron counting, 45
Evoked discharge
Cerebellar Purkinje cell; Treadmill locomotion; Neuromodulation; Sex steroid; Evoked: spontaneous ratio, 335
Excitation level
α-Motoneuron; Excitatory conductance; Inhibitory conductance; Ia-EPSP; Presynaptic inhibition, 91
Excitatory conductance
α-Motoneuron; Inhibitory conductance; Ia-EPSP; Presynaptic inhibition; Excitation level, 91
Experimental simulation
Muscle spindle; Fusimotor neuron; Voluntary movement; Chronic recording; Iterative approximation, 225

Flight
Locust; Intracellular recording; Proprioceptor; Sensory feedback; Pattern generation, 345
Fluorescent tracer
Retrograde transport; N. interpositus of the cerebellum; Red nucleus; Cat, 31
Fusimotor neuron
Muscle spindle; Voluntary movement; Chronic recording; Experimental simulation; Iterative approximation, 225

Glial fibrillary acidic protein
Human astrocyte; Bromodeoxyuridine; Double immunofluorescence, 9
D-Glutamate
Oscillator; Central pattern generator; Locomotion; Lamprey; Regeneration, 113

Heterogenic reflex
Decerebrate cat: Autogenic reflex; Mechanical analysis, 265
Hidden line removal
Serial section; Three-dimensional reconstruction; Computer graphics, 55
Horseradish peroxidase
Active synapse; Endocytosis; Synaptic vesicle; Crustacean neuromuscular junction; Macro-patch electrode; Labeling technique; Electron microscopy, 17
Human astrocyte
Bromodeoxyuridine; Glial fibrillary acidic protein; Double immunofluorescence, 9
Hybridoma
Cerebellum; Monoclonal antibody; immunocytochemistry; Immunoassay, 145

IA-EPSP
α-Motoneuron; Excitatory conductance; Inhibitory conductance; Presynaptic inhibition; Excitation level, 91
Immunoassay
Cerebellum; Monoclonal antibody; immunocytochemistry; Hybridoma, 145
Immunocytochemistry
Wholemount; Serotonin; Immunoperoxidase; Avidin–biotin; Crustacean; Arthropod; Cerebral ganglion, 1
Immonocytochemistry
Cerebellum; Monoclonal antibody; Immunoassay; Hybridoma, 145
Immunoperoxidase
Wholemount; Serotinin; Immunocytochemistry; Avidin–biotin; Crustacean; Arthropod; Cerebral ganglion, 1
Infinite conductor model
Current dipole; Inverse problem; Somatosensory evoked potential, 195
Inhibitory conductance
α-Motoneuron; Excitatory conductance; Ia-EPSP; Presynaptic inhibition; Excitation level, 91.
Intracellular recording; Locust; Flight; Proprioceptor; Sensory feedback; Pattern generation, 345

Inverse problem
Current dipole; Infinite conductor model; Somatosensory evoked potential, 195
In vitro preparation
Locomotor system; Lamprey; Command system; Pattern generator, 251
Isometric contraction
Muscle fiber length; Ultrasound, 159
Iterative approximation
Muscle spindle; Fusimotor neuron; Voluntary movement; Chronic recording; Experimental simulation, 225

Jaw system
Muscle; Dynamic simulation; Three-dimensional reconstruction, 287

Kinematics
Motor control; Arm movement; Trajectory planning, 181

Labeling technique
Active synapse; Endocytosis; Synaptic vesicle; Horseradish peroxidase; Crustacean neuromuscular junction; Macro-patch electrode; Electron microscopy, 17
Lamprey
Locomotor system; In vitro preparation; Command system; Pattern generator, 251
Lamprey
Oscillator; Central pattern generator; Locomotion; D-Glutamate; Regeneration, 113
Linear
Antibody; Anti-myelin; ELISA; Neuritis, 81
Locomotion
Oscillator; Central pattern generator; Lamprey; D-Glutamate; Regeneration, 113
Locomotion
2-Deoxyglucose; Autoradiograph; Brainstem; Mesencephalic locomotor region (MLR); Thalamic cat, 303
Locomotor system
In vitro preparation; Lamprey; Command system; Pattern generator, 251
Locomotor pattern
Rhythmic movement; Motor pattern generation; Motor control; Brainstem locomotor region; Respiratory movement, 321
Locust
Flight; Intracellular recording; Proprioceptor; Sensory feedback; Pattern generation, 345

Macro-patch electrode
Active synapse; Endocytosis; Synaptic vesicle; Horseradish peroxidase; Crustacean neuromuscular junction; Labeling technique; Electron microscopy, 17
Mechanical analysis
Decerebrate cat; Autogenic reflex; Heterogenic reflex, 265
Mesencephalic locomotor region (MLR)
2-Deoxyglucose; Autoradiograph; Locomotion; Brainstem; Thalamic cat, 303
Monoclonal antibody
Cerebellum; Immunocytochemistry; Immunoassay; Hybridoma, 145
α-Motoneuron; Excitatory conductance; Inhibitory conductance; Ia-EPSP; Presynaptic inhibition; Excitation level, 91
Motor activity
Development; Chick embryo; Embryonic motoneuron; Spinal function, 275
Motor control
Arm movement; Trajectory planning; Kinematics, 181
Motor control
Rhythmic movement; Motor pattern generation; Brainstem locomotor region; Respiratory movement; Locomotor pattern, 321
Motor pattern generation
Rhythmic movement; Motor control; Brainstem locomoter region; Respiratory movement; Locomotor pattern, 321
Motor program generator
Neural network; Computational model; Parallel processor, 127
Motor system
Cross-correlation; Signal analysis; Red nucleus; Single unit; Descending pathway, 201
Motor unit
Electromyography; Cross-correlation; Neck muscle, 239
Muscle fiber length
Ultrasound; Isometric contraction, 159
Muscle force estimation
Non-linear optimization; Muscle modeling, 167
Muscle modeling
Muscle force estimation; Non-linear optimization, 167
Muscle spindle
Fusimotor neuron; Voluntary movement; Chronic recording; Experimental simulation; Iterative approximation, 225
Muscle unit
Electromyography; Recording array; Cat muscle, 105
Muscle
Jaw system; Dynamic simulation; Three-dimensional reconstruction, 287
Myenteric plexus
Cuprolinic blue; Enteric nervous system; RNA staining; Neuron counting, 45
Neck muscle
Electromyography; Cross-correlation; Motor unit, 239
Neural network
Computational model; Parallel processor; Motor program generator, 127
Neuritis
Antibody; Anti-myelin; ELISA; Linear, 81
Neuromodulation
Cerebellar Purkinje cell; Treadmill locomotion; Sex steroid; Evoked discharge; Evoked: spontaneous ratio, 335
Neuron counting
Cuprolinic blue; Myenteric plexus; Enteric nervous system; RNA staining, 45
N. interpositus of the cerebellum
Fluorescent tracer; Retrograde transport; Red nucleus; Cat, 31
Non-linear optimization
Muscle force estimation; Muscle modeling, 167
Oscillator
Central pattern generator; Locomotion; Lamprey; D-Glutamate; Regeneration, 113
Parallel processor
Neural network; Computational model; Motor program generator, 127
Parylene
Substantia nigra pars compacta; Chronic unit recording; Stainless steel electrode; Tungsten electrode; Dopamine, 71
Pattern generator
Locomotor system; In vitro preparation; Lamprey; Command system, 251
Pattern generation
Locust; Flight; Intracellular recording; Proprioceptor; Sensory feedback, 345
Postural control
Cat training; Chronic recording technique; Decebration; Reflex, 311
Presynaptic inhibition
α-Motoneuron; Excitatory conductance; Inhibitory conductance; Ia-EPSP; Excitation level, 91
Proprioceptor
Locust; Flight Intracellullar recording; Sensory feedback; Pattern generation, 345

Recording array;
Electromyography; Muscle unit; Cat muscle, 105
Red nucleus
Fluorescent tracer; Retrograde transport; N. interpositus of the cerebellum; Cat, 31
Red nucleus
Cross-correlation; Signal analysis; Single unit; Descending pathway; Motor system, 201
Reflex
Cat training;Chronic recording technique; Decerebration; Postural control, 311
Regeneration
Oscillator; Central pattern generator; Locomotion; Lamprey; D-Glutamate, 113
Regional glucose utilization
2-Deoxyglucose; Cat; Spinal cord; Deafferentation, 139
Respiratory movement
Rhythmic movement; Motor pattern generation; Motor control; Brainstem locomotor region; Locomotor pattern, 321
Retrograde transport
Fluorescent tracer; N. interpositus of the cerebellum; Red nucleus; Cat, 31
Rhythmic movement
Motor pattern generation; Motor control; Brainstem locomoter region; Respiratory movement; Locomotor pattern, 321
RNA staining
Cuprolinic blue; Myenteric plexus; Enteric nervous system; Neuron counting, 45

Sensory feedback
Locust; Flight; Intracellular recording; Proprioceptor; Pattern generation, 345
Serial section
Three-dimensional reconstruction; Computer graphics; Hidden line removal, 55
Serotonin
Wholemount; Immunocytochemistry; Immunoperoxidase; Avidin–biotin; Crustacean; Arthropod; Cerebral ganglion, 1
Sex steroid
Cerebellar Purkinje cell; Treadmill locomotion; Neuromodulation; Evoked discharge; Evoked: spontaneous ratio, 335
Signal analysis
Cross-correlation; Red nucleus; Single unit; Descending pathway; Motor system, 201
Single unit
Cross-correlation; Signal analysis; Red nucleus; Descending pathway; Motor system, 201
Somatosensory evoked potential
Current dipole; Infinite conductor model; Inverse problem, 195
Spinal cord
2-Deoxyglucose; Regional glucose utilization; Cat; Deafferentation, 139
Spinal function
Motor activity; Development; Chick embryo; Embryonic motoneuron, 275
Stainless steel electrode
Substantia nigra pars compacta; Chronic unit recording; Tungsten electrode; Parylene; Dopamine, 71
Substantia nigra pars compacta
Chronic unit recording; Stainless steel electrode; Tungsten electrode; Parylene; Dopamine, 71
Synaptic vesicle
Active synapse; Endocytosis; Horseradish peroxidase; Crustacean neuromuscular junction; Macro-patch electrode; Labeling technique; Electron microscopy, 17

Thalamic cat
2-Deoxyglucose; Autoradiograph; Locomotion; Brainstem; Mesencephalic locomotor region (MLR), 303
Three-dimensional reconstruction
Serial section; Computer graphics; Hidden line removal, 55
Three-dimensional reconstruction
Muscle; Jaw system; Dynamic simulation, 287
Trajectory planning
Motor control; Arm movement; Kinematics, 181
Treadmill locomotion
Cerebellar Purkinje cell; Neuromodulation; Sex steroid; Evoked discharge; Evoked: spontaneous ratio, 335
Tungsten electrode
Substantia nigra pars compacta; Chronic unit recording; Stainless steel electrode; Parylene; Dopamine, 71

Ultrasound
Muscle fiber length; Isometric contraction, 159

Voluntary movement
Muscle spindle; Fusimotor neuron; Chronic recording; Experimental simulation; Iterative approximation, 225

Wholemount
Serotonin; Immunocytochemistry; Immunoperoxidase; Avidin–biotin; Arthropod; Cerebral ganglion, 1

Contents Volume 21

Research Papers

A.R. Aitken, R.E. Sandeman and D.C. Sandeman (Australia)
Preparation of immunoperoxidase-labelled wholemounts of invertebrate brains (NSM 00700) 1

V.W. Yong and S.U. Kim (Canada)
A new double labelling immunofluorescence technique for the determination of proliferation of human astrocytes in culture (NSM 00708) 9

F.W. Tse, L. Marin and H.L. Atwood (Canada)
Focal labeling of axonal terminals with active synapses recorded by an extracellular macro-patch electrode (NSM 00710) 17

F. Condé (France)
Further studies on the use of the fluorescent tracers Fast blue and Diamidino yellow: effective uptake area and cellular storage sites (NSM 00711) 31

E.A. Heinicke, J.A. Kiernan and J. Wijsman (Canada)
Specific, selective, and complete staining of neurons of the myenteric plexus, using Cuprolinic blue (NSM 00712) 45

R.G. Smith (U.S.A.)
Montage: a system for three-dimensional reconstruction by personal computer (NSM 00705) 55

M. Diana, M. Garcia-Munoz and C.R. Freed (U.S.A.)
Wire electrodes for chronic single unit recording of dopamine cells in substantia nigra pars compacta of awake rats (NSM 00715) 71

G.K. Harvey, K. Schindheim, J.H. Antony and J.D. Pollard (Australia)
Linear response curves from an ELISA assay: measurement of anti-myelin IgG and IgM during experimental allergic neuritis (NSM 00709) 81

Special Issue:
Novel Approaches to the Study of Motor Systems

Foreword v

Acknowledgements vi

C. Capaday and R.B. Stein (Canada)
A method for simulating the reflex output of a motorneuron pool (NSM 00718) 91

C.M. Chanaud, C.A. Pratt and G.E. Loeb (U.S.A.)
A multiple-contact EMG recording array for mapping single muscle unit territories (NSM 00720) 105

A.H. Cohen (U.S.A.)
Effects of oscillator frequency on phase-locking in the lamprey central pattern generator (NSM 00743) 113

R. Eckmiller (F.R.G.)
Computational model of the motor program generator for pursuit (NSM 00721) 127

E. Eidelberg, A.L. Miller, R.J. Schwartzman and G.M. Alexander (U.S.A.)
Measurements of regional glucose metabolism in studies of motor control (NSM 00722) 139

C. Gravel, N. Leclerc, J. Refrafi, R. Sasseville, L. Thivierge and R. Hawkes (Canada)
Monoclonal antibodies reveal the global organization of the cerebellar cortex (NSM 00723) 145

R.I. Griffiths (Canada)
Ultrasound transit time gives direct measurement of muscle fibre length in vivo (NSM 00724) 159

W. Herzog (Canada)
Individual muscle force estimations using a non-linear optimal design (NSM 00725) 167
